PARTNERSHIPS

SMART TRADING STARTS WITH RDI MT6 INTELLIGENCE

Leveraging AI MT6 modern technology and advanced trading platforms like MetaTrader 4 & 5, among others, we have modeled our business operations in a way that caters to your specific requirements. With RDI MT6, You get everything you need to succeed in the world of AI trading.

WHY CHOOSE RDI MT6?

B2B ADVERTISING PARTNERSHIPS

An advertisement income-sharing B2B platform provides businesses with a collaborative and mutually beneficial way to monetize their advertising assets, reach new audiences, and generate additional revenue streams.

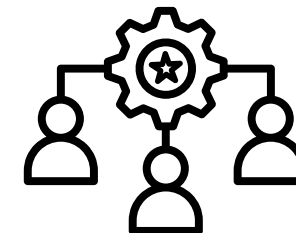

Advertising Partnership Marketplace

Explore a diverse range of income-sharing advertising opportunities with businesses across various industries. Our marketplace connects you with like-minded partners to collaborate on targeted advertising campaigns that drive revenue growth for both parties.

Transparent Negotiation Tools

Our platform provides intuitive negotiation tools that facilitate open and transparent discussions between businesses. Negotiate revenue-sharing terms, campaign details, and other agreements with confidence, knowing that transparency is at the forefront of every partnership.

Real-Time Performance Tracking

Gain valuable insights into the performance of your advertising campaigns with our real-time tracking tools. Monitor key metrics such as clicks, conversions, and revenue generated, and make data-driven decisions to optimize your campaigns for maximum impact.

Revenue Calculation and Distribution

Revenue generated from clicks is calculated based on the agreed-upon revenue-sharing percentage. The platform automatically calculates the revenue share owed to each business based on the number of clicks generated by their advertisements. Revenue is then distributed accordingly to the respective businesses.
